Uploading a GEDCOM file to ANCESTRY

1. Select Trees from main menu bar

2. Select create and manage trees

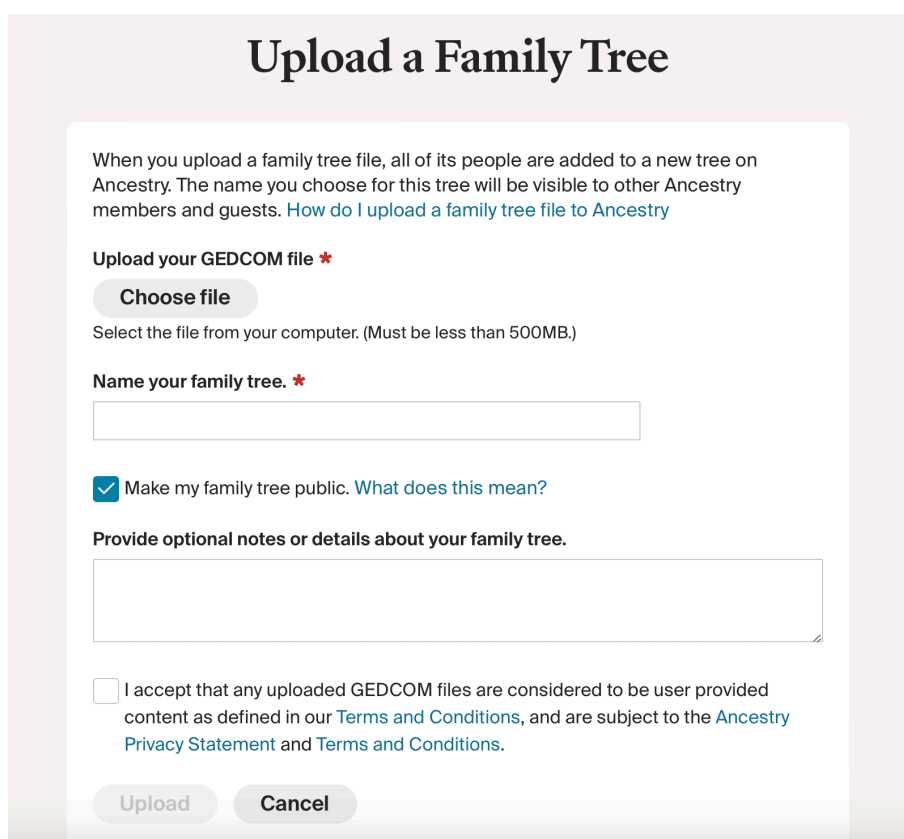

3. These options appear below family tree names

4. Select upload a GEDCOM file

5. Follow the instructions on the next page:

Choose file – make sure that you can locate where your GEDCOM file is on your computer.

The image shows a form titled 'Upload a Family Tree'. The form contains the following elements: a paragraph explaining that uploading a family tree file adds people to a new tree and that the name will be visible to other members; a section titled 'Upload your GEDCOM file' with a red asterisk and a 'Choose file' button; a note that the file must be less than 500MB; a section titled 'Name your family tree' with a red asterisk and a text input field; a checkbox labeled 'Make my family tree public' which is checked, with a link 'What does this mean?'; a section titled 'Provide optional notes or details about your family tree.' with a large text area; a checkbox for accepting terms and conditions; and 'Upload' and 'Cancel' buttons at the bottom.
